

Activity 5 – Messages of Hope

Something I think we all have in common during lockdown is that we've all started thinking about other people more than we did before. Perhaps we've offered to help a friend or family member with something, or just phoned to check they're OK? All of this is exactly what God asks us to do when Jesus said we should "love our neighbours as ourselves".

Activity:

Why not go the extra mile to make someone smile? Perhaps you know someone who needs cheering up? Maybe a neighbour who's been isolating for a long time? Why not write some messages of hope or love on the pavements with chalk? Or even some cheerful pictures. And as always, we really want to see photos of your messages!

What you will need:

1. Chalk

Here's some examples from St. Martin's Junior Church last year 😊
